If you are looking for a way to make your work easier when cleaning rust, paint or weld seams, you should take a look at all our equipment.

PANDA, SHARK, FOX and EXCALIBUR.

Each of our machines can also help you prepare iron, steel or aluminium before welding.

PULSAR LASER

Graffiti or natural deposits on buildings, stone statues, railings or stairs will no longer be your nightmare.

Forget the chemistry and try out some of these graffiti-friendly tools:

PANDA, SHARK or EXCALIBUR.

Thanks to the laser beam modulation developed by us, you can remove deposits or colour without damaging the stone.

**Oil, carbon, rust or other deposits on
aluminium or metal motors?**

You never want to have problems with
sandblasting again?

Take a look at our PANDA, SHARK or
EXACLIBUR appliances.

Even the smallest PANDA cleans your
engines or other car and motorbike parts
perfectly.

**Achieve outstanding services. Let
excellence be your calling card.**

PULSAR
LASER

Our cleaners from the PANDA, EXCALIBUR and SHARK series are also used in restoration. SHARK, EXCALIBUR and PANDA are often used by restorers for the restoration of historical monuments and wooden furniture.

The wood remains completely dry, free from dirt, moss, mould and pests. The wood carving has been preserved.

Try wood restoration or stone with our technology.

PULSAR

New car or classic car - classic car?

You certainly don't want to sand it down! SHARK, EXCALIBUR and PANDA are also popular in the bodywork segment.

Our cleaners from the PANDA, SHARK, EXCALIBUR or FOX series perfectly remove rust, paint and rubber, leaving you with a wonderfully clean body without any damage.

Isn't that amazing?

There have already been enough destroyed car bodies!

Maintenance?

Moulds, machines, tools or accessories?

If you need to clean moulds of plastic or rubber residues, SHARK, PANDA or EXCALIBUR is the right choice for you.

This allows you to clean every part of your technology without dismantling it.

Extremely fast amortisation of maintenance investments.

EXCALIBUR

EXCALIBUR P CL 100E 39 400,-CAD

Power: 100 W

Pulse energy: 1.5 mJ

Cable length: 5 m

Scan length: 100 mm

Scanning width: 20 mm

Weight of the cleaning head: approx. 1.8 kg

Cooling: Air

Popular in garages or for restoration.
